WESTLAKE VILLAGE, CA, May 7, 2019 (GLOBE NEWSWIRE)— **MannKind Corporation (NASDAQ:MNKD)** today reported financial results for the quarter ended March 31, 2019.

“In the first quarter of 2019, we executed against the United Therapeutics License and Collaboration agreement, achieving the first of four milestone payments of \$12.5 million. We also continued to grow Afrezza net revenue by 49% compared to 1Q 2018 and we released new clinical data at scientific meetings that continue to differentiate Afrezza from other rapid acting insulins,” said Michael Castagna, Chief Executive Officer of MannKind Corporation.

Total revenues were \$17.4 million for the first quarter of 2019, reflecting Afrezza net revenue of \$5.1 million and collaboration and services revenue of \$12.4 million. Afrezza net revenue increased 49% compared to \$3.4 million in the first quarter of 2018, primarily driven by higher product demand, a more favorable mix of cartridges and price. Collaboration and services revenue increased \$12.4 million, primarily due to the United Therapeutics licensing and research agreements.

Afrezza cost of goods sold was \$4.0 million for the first quarters of both 2019 and 2018. Afrezza gross profit for the first quarter of 2019 was \$1.1 million, the second consecutive quarter that gross profit was recognized for Afrezza. Afrezza gross profit for the first quarter of 2018 was negative \$0.6 million. The increase was primarily driven by higher Afrezza sales.

Research and development expenses for the first quarter of 2019 were \$1.7 million compared to \$2.6 million for the first quarter of 2018. This 37% decrease was primarily attributable to \$0.4 million decreases in both lower clinical trial spending and lower personnel costs.

Selling, general and administrative expenses for the first quarter of 2019 were \$25.7 million compared to \$20.6 million for the first quarter of 2018. This 25% increase was primarily due to \$9.3 million spent on direct-to-consumer television advertising offset by a \$1.2 million decrease in personnel costs, a \$0.9 million decrease in stock-based compensation expense, and a \$0.7 million decrease in professional fees.

Interest expense on notes (facility financing obligation and senior convertible notes) for the first quarter of 2019 was \$0.6 million compared to \$1.8 million for the first quarter of 2018. This \$1.2 million decrease was primarily due to a reduction in debt principal balances.

The net loss for the first quarter of 2019 was \$14.9 million, or \$0.08 per share compared to a \$30.4 million net loss in the first quarter of 2018 or \$0.25 per share. The lower net loss is mainly attributable to a \$14.0 million increase in total revenues.

Cash, cash equivalents, restricted cash, and short-term investments at March 31, 2019 was \$59.8 million compared to \$71.7 million at December 31, 2018. The decrease was primarily due to net cash used in operating activities of \$11.6 million in the first quarter of 2019, which included the receipt of a \$12.5 million milestone payment from United Therapeutics.
