About MannKind Corporation

MannKind Corporation (Nasdaq: MNKD) focuses on the development and commercialization of innovative therapeutic products and devices to address serious unmet medical needs for those living with endocrine and orphan lung diseases. We are committed to helping people manage serious health conditions – such as diabetes, pulmonary arterial hypertension (PAH) and idiopathic pulmonary fibrosis (IPF) – and experience life without limits.

Our approach begins with MannKind's signature technology comprised of dry-powder formulation capabilities and inhalation device engineering that offers rapid and convenient delivery of medicines to the deep lung where they can exert an effect locally or enter the systemic circulation.

With a diverse pipeline, and a passionate team of Mannitarians collaborating nationwide, we are on a mission to give people control of their health and the freedom to live life.
