MannKind Corporation Reports 2010 Fourth Quarter and Full Year Financial Results

VALENCIA, Calif., Feb 10, 2011 (BUSINESS WIRE) -- **MannKind Corporation (Nasdaq:MNKD)** today reported financial results for the fourth quarter and year ended December 31, 2010.

For the fourth quarter of 2010, total operating expenses were \$32.1 million, compared to \$55.8 million for the fourth quarter of 2009, a decrease of \$23.7 million. Research and development (R&D) expenses were \$24.2 million for the fourth quarter of 2010 compared to \$43.1 million for the same quarter in 2009, a decrease of \$18.9 million. This 44% decrease was primarily due to the non-recurrence of a \$12.8 million loss on disposal of fixed assets in 2009 as well as reduced costs associated with the clinical development of AFREZZA[®] after the submission of its new drug application (NDA) to the U.S. Food & Drug Administration (FDA) in March 2009, partially offset by an increase in raw materials purchases. General and administrative (G&A) expenses decreased by \$4.8 million to \$7.9 million for the fourth quarter of 2010 compared to \$12.7 million in the fourth quarter of 2009, primarily due to reduced salary related costs.

The net loss applicable to common stockholders for the fourth quarter of 2010 was \$38.3 million, or \$0.33 per share based on 114.9 million weighted average shares outstanding, compared with a net loss applicable to common stockholders of \$59.5 million, or \$0.53 per share based on 112.9 million weighted average shares outstanding for the fourth quarter of 2009. The number of common shares outstanding at December 31, 2010 was 127,793,178.

For the year ended December 31, 2010, total operating expenses were \$152.6 million, compared with \$209.8 million for 2009, a decrease of \$57.2 million. R&D expenses were \$112.3 million in 2010, compared to \$156.3 million in 2009, a decrease of \$44.1 million. The 28% decrease was primarily due to the non-recurrence of the \$12.8 million loss on disposal of fixed assets in 2009, decreased costs associated with the clinical development of AFREZZA and reduced salary related and other research costs as a result of a reduction in force in April 2009, partially offset by increased raw materials purchases. G&A expenses decreased by \$13.1 million to \$40.3 million for 2010 as compared to \$53.4 million for 2009 primarily due to decreased salary related costs resulting from the April 2009 reduction in force as well as the non-recurrence of costs related to the insulin acquisition transaction with Pfizer, Inc. during the second quarter of 2009 and decreased professional fees related to market studies conducted in 2009.

The net loss applicable to common stockholders for the year ended December 31, 2010 was \$170.6 million, or \$1.50 per share based on 113.7 million weighted average shares outstanding, compared with a net loss applicable to common stockholders of \$220.1 million, or \$2.07 per share based on 106.5 million weighted averages shares outstanding for 2009.

Cash, cash equivalents and marketable securities were \$70.4 million at December 31, 2010 and \$32.5 million at December 31, 2009. In the fourth quarter of 2010, the Company issued and sold 2.1 million shares of common stock to Seaside 88, LP (Seaside) for net proceeds of \$14.4 million in accordance with the Company's common stock purchase agreement with Seaside. Concurrently, with the Seaside closing, the Company issued and sold 2.1 million shares of common stock to The Mann Group, an entity controlled by the Company's principal stockholder, for a total purchase price of \$16.7 million, which was paid by the cancellation of outstanding principal under the Company's \$350.0 million loan agreement with The Mann Group. After taking into account the debt cancellation of \$16.7 million during the fourth quarter, as of December 31, 2010, the principal amount outstanding under the loan agreement was \$235.3 million, and the Company has \$98.0 million of available borrowings under the loan agreement.

"The year ahead will be focused on the activities that are necessary to secure the approval of AFREZZA," said Alfred Mann, Chairman and Chief Executive Officer of MannKind. "We are requesting guidance from the FDA in order to clarify the regulatory path for AFREZZA and we will promptly implement their recommendations as soon as possible after our requested meeting. In the meantime, we are restructuring our organization to be focused on securing the approval of AFREZZA, which today resulted in the elimination of approximately 41% of our workforce. We remain committed to our goal of making AFREZZA available for the millions of patients with diabetes."
