

MannKind Corporation Reports 2016 Second Quarter Financial Results

August 8, 2016 8:00 PM EDT

VALENCIA, Calif., Aug. 08, 2016 (GLOBE NEWSWIRE) -- **MannKind Corporation** (Nasdaq:MNKD) (TASE:MNKD) today reported financial results for the second quarter and the six months ended June 30, 2016.

For the second quarter ended June 30, 2016, total operating expenses were \$19.1 million as compared to \$24.1 million for the same quarter in 2015. Research and development expenses were \$4.3 million for the second quarter of 2016, a decrease of 44% compared to the second quarter of 2015, primarily due to a reduction in force in 2015 following the completion of Afrezza registration trials. Selling, general and administrative costs were \$11.1 million for the second quarter of 2016, an increase of 5% compared to general and administrative costs for the second quarter of 2015, mainly due to sales and marketing expenses. Manufacturing of commercial product resumed in the second quarter of 2016, in preparation for the relaunch of Afrezza in the third quarter of 2016, resulting in the recognition of product manufacturing costs of \$3.7 million for the three months ended June 30, 2016. With limited production and underutilization of the manufacturing facility in the same period of 2015, product manufacturing costs were \$5.7 million for the second quarter of 2015 due to under absorbed labor and overhead.

For the first six months ended 2016, total operating expenses were \$39.1 million, a decrease of 15% as compared to \$45.8 million for the same period in 2015. Research and development expenses were \$9.4 million for the six months ended June 30, 2016, a decline of 45% compared to the same period in 2015, primarily due to the reduction in force in 2015 and the transition from development to commercial activities. Selling, general and administrative expenses for the six months ended June 30, 2016 were \$18.5 million, a decrease of 13% compared to the same period in 2015, primarily due to the reduction in force, reduced professional fees related to strategic planning activities and lower non-cash stock compensation expense in 2015, offset by increased sales and marketing expense in 2016. Product manufacturing costs were \$11.2 million for the six months ended June 30, 2016, an increase of 47% compared to the same period in 2015, as manufacturing of commercial product resumed in preparation for the relaunch of Afrezza in the third quarter of 2016.

For the three months ended June 30, 2016, the Company earned \$0.3 million under the Sanofi License Agreement, which is required to be applied as a prepayment against the balance owed under the Sanofi Loan Facility. As of June 30, 2016, the total amount owed to Sanofi is \$70.3 million, which includes accrued interest of \$4.3 million.

Included in net loss for the three and six months ended June 30, 2016 is the non-cash effect of a \$5.3 million fair value adjustment of the warrant liability related to the registered direct public offering completed in May 2016.

The net loss for the second quarter of 2016 was \$30.0 million, or \$0.07 per share, based on 455.3 million weighted average shares outstanding, compared with to the net loss of \$28.9 million, or \$0.07 per share, based on 401.0 million weighted average shares outstanding for the second quarter of 2015. The number of common shares outstanding at June 30, 2016 was 477.7 million.

Cash and cash equivalents at June 30, 2016 were \$63.7 million, compared to \$27.7 million at March 31, 2016. In May 2016, the Company received net proceeds of \$47.4 million upon completion of a registered direct public offering, \$9.2 million from Sanofi for the sale of insulin inventory in connection with a contractual obligation upon termination of the Sanofi License Agreement, and \$0.7 million from Connecticut as a Research & Development tax credit. Currently, \$30.1 million remains available for borrowing under the amended loan arrangement with The Mann Group along with \$50.0 million available under the ATM facility.
